

Environmental Policy

DTMT recognises that protection of the environment is an important component within the company's operations and a necessary element of good corporate citizenship. DTMT is committed to improving its operating practices to ensure its environmental footprint is minimised for future generations.

Our commitment

We will:

- Establish an environmental management system based on continuous improvement and ensure all personnel understand the requirements of set standards
- Comply with environmental legislation and other requirements to increase environmental performance and adopt principles of environmental protection.
- Assess and monitor our environmental risks and impacts, and implement processes to ensure these are adequately managed.
- Promote the adoption of sound environmental practices by all personnel through training and the improvement of overall environmental awareness.
- Strive for continuous improvement by setting and reviewing environmental targets and objectives
- Measure and report our performance, continually striving for excellence and best practice
- Manage our activities to prevent or minimise pollution and adverse environmental impacts

Our responsibility

Our leadership team is accountable to communicate and implement this policy to all employees, contractors, suppliers and visitors. This policy applies to all employees and subcontractors engaged in activities under DTMT operational control.
